## ROOTS" ${ }^{\text {" }}$ Meter Oil Application Chart*

DMD-Roots DIVISION

In direct response to numerous customer requests, ROOTS Meters \& Instruments will reduce the quantity of oil supplied with each meter. Introduction of the new ROOTS ${ }^{\text {TM }}$ meter oil is scheduled for September, 2000.

All meters are shipped with the largest quantity of oil required for the initial filling of the meter (i.e., Top Inlet configuration plus a "little extra" in the event of spillage).

## In This Issue: Environmentally Friendly ROOTS ${ }^{\text {TM }}$ Meter Oil

In direct response to expressed concerns for personal safety and environmental issues, DMD-Roots is introducing a new meter oil that is NOT rated hazardous by OSHA or the EPA and contains no substances subject to reporting or planning requirements under SARA TITLE III.

Most hydrocarbon-based oils used in the natural gas industry have limited occupational exposure limits. Often these oils contain a dye that is added for improved viewing capability. A commonly used component of the dye, Ethyl Benzene, produces a higher than desired toxicity level. Our new and environmentally friendly ROOTS ${ }^{T M}$ meter oil is still red in color but contains no toxic or hazardous ingredients. The Material Safety Data Sheet (MSDS) for our new ROOTS ${ }^{\text {TM }}$ meter oil permits handling with standard neoprene type gloves in lieu of Nitrite gloves recommended with most lubricants. The Material Safety Data Sheet (MSDS) is available in hard copy or can be electronically transmitted as a Microsoft Word.doc attachment.

Our new ROOTS ${ }^{T M}$ meter oil is specially formulated and blended from a non-hazardous, state of the art R\&O AW hydraulic oil additive package that inhibits oxidation and foaming. The oil can also be used in any Series A1 (LM-MA) or Series B2 (TQM) meter and can be safely blended with previously approved ROOTS ${ }^{\text {TM }}$ meter oils such as ROOTS ${ }^{\circledR}$ Versi-Temp 2 Meter Oil (Shell Tellus T15) and Grade 50 (Shell Diala AX). The resulting oil color will vary depending on the quantities of each oil used in the mixture. Draining the old oil before adding the new oil is optional if oil color clarity is of concern.

Using this opportunity to address another customer concern, several new container sizes are being introduced. While a sufficient quantity of oil will still be provided free of charge with each shipment for the initial filling of the meter, the net result is a reduced quantity of residual meter oil requiring special handling. The new quantities are reflected in the attached ROOTS ${ }^{\text {TM }}$ Meter Oil Application Chart.

ROOTS ${ }^{\top M}$ meter oil is available in various container sizes and can be purchased directly from ROOTS Meters \& Instruments or through an authorized ROOTS ${ }^{\circledR}$ meter distributor.

The transition to our new ROOTS ${ }^{\text {TM }}$ meter oil is planned for September, 2000.

Transportation Emergency: CHEMTREC 1-(800) 424-9300 (U.S. and Canada)

## $=$

CHEMICAL AND PHYSICAL PROPERTIES---SECTION II
$=$
Chemical Name:
petroleum hydrocarbon
.Formula: not applicable
Hazardous Decomposition Products:
carbon monoxide and carbon dioxide from burning.
oxides of phosphorous from burning
oxides of sulfur
Incompatibility (Keel away from): strong oxidizers such as hydrogen peroxide, bromine, and chromic acid.
Toxic and Hazardous Ingredients: none
Form: liquid Odor: bland
Appearance: liquid Color: red
Specific Gravity (water=1): 0.8729
Boiling Point: greater than $330^{\circ} \mathrm{C}\left(625^{\circ} \mathrm{F}\right)$
Melting Point: less than $-53^{\circ} \mathrm{C}$
Solubility in Water (by -weight $\%$ ): 0 at $20^{\circ} \mathrm{C}$
Volatile (by weight \%): 0
Evaporation Rate: 0
Vapor Pressure ( mm Hg at $20^{\circ} \mathrm{C}$ ): 0
Vapor Density (air=1): not volatile
pH (as is): not applicable
Stability: Product is stable under normal conditions
Viscosity SUS at $100^{\circ} \mathrm{F}$ : Less than 100

## FIRE AND EXPLOSION DATA---SECTION III

## Special Fire Fighting Procedures:

Do not use water except as fog.
Unusual Fire and Explosion Hazards:
none
Flash-point: (Method Used) Cleveland open cup greater than $135^{\circ} \mathrm{C}\left(275^{\circ} \mathrm{F}\right)$
Flammable limits \% : not applicable
Extinguishing agents: Drychemical or Waterfog or C02 or Foam Closed containers exposed to fire may be cooled with water.

## HEALTH HAZARD DATA---SECTION IV

Permissible concentrations (air): see
COMMENTS section
Chronic effects of overexposure: no data available
Acute toxicological properties: no data available
Emergency First Aid Procedures:
Eves: Immediately flush with large quantities of water for at least 15 minutes and call a physician.
Skin Contact: Remove excess with cloth or paper. Wash thoroughly with soap and water. Inhalation: Remove victim to fresh air. Call a physician. If Swallowed: Call a physician immediately. DO NOT induce vomiting. (Vomiting may cause aspiration into lungs resulting in chemical pneumonia.)

## SPECIAL PROTECTION INFORMATION---SECTION V

## Ventilation Type Required (Local mechanical, special): see COMMENTS

section
Respiratory Protection (Specify type): Use NIOSH/MSHA certified respirator with dual organic vapor/mist and particulates cartridge if vapor concentration exceeds permissible exposure limit.
Protective Gloves: neoprene type
Eve Protection:
chemical safety goggles
Other Protective Equipment: none

## HANDLING OF SPILLS OR LEAKS---SECTION VI

Procedures for Clean-Up:
Transfer bulk of mixture into another container. Absorb residue with an inert material such as earth, sand, or vermiculite. Sweep up and dispose as solid waste in accordance with local, state, and federal regulations.
Waste Disposal:
Dispose of in accordance with all applicable federal, state and local regulations.

## SPECIAL PRECAUTIONS---SECTION VII

Precautions to be taken in handling and storage: Do not handle or store at temperatures over Maximum Storage Temperature: $60^{\circ} \mathrm{C}\left(140^{\circ} \mathrm{F}\right)$

TRANSPORTATION DATA---SECTION VIII
D. O. T. : Not Regulated

Reportable Quantity: not applicable
Freight Classification: Petroleum Lubricating Oil
Special Transportation Notes: none
ENVIRONMENTAL/SAFETY REGULATIONS---SECTION IX
Section 313 (Title III Superfund Amendment and Reauthorization Act):
This product does not contain any chemical in sufficient quantity to be subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.

## COMMENTS

If used in applications where a mist may be generated, observe a TWA/PEL of 5 $\mathrm{mg} / \mathrm{m} 3$ for mineral oil mist (OSHA and ACGIH).

The additive mixtures in this Product have been declared a trade secret by the additive manufacturers.
