

Royal Purple Ultra Performance Grease

Synthetic EP Aluminum Complex Grease NLGI #2

Ultra-Performance grease is a high-performance, multi-service, aluminum complex thickened, synthetic grease. In addition to premium quality base oils and additives, this grease has Synslide®, Royal Purple's proprietary noncorrosive EP additive technology.

Since 2016, Roots has been using this product as the standard lubricant for the drive end of their grease-lubricated blowers.

TYPICAL PROPERTIES

NLGI Grade	2
Penetration, 60 Strokes	280
Dropping Point	525°F (274°C)
Water Washout, Loss @ 100°F (37.8°C)	4.5%
Oil Separation Test	1.3%
Four Ball EP (Weld) Kg	400
Load Wear Index Kg	65.2
Rust Test (ASTM D1743)	PASS
Temperature Range	-40°F to 350°F (-40°C to 177°C)
Part Number	26573

PERFORMANCE ADVANTAGES

- Exceptional high-temperature performance
- Excellent resistance against water contamination
- Outstanding wear protection with Synslide®
- Superior corrosion protection
- Reduced maintenance costs and downtime
- Non-toxic / Non-hazardous

MAINTENANCE TIPS

- Do not overgrease
- Apply with a hand pump only, as a pneumatic grease gun can fill too quickly and damage the seals
- Keep grease vents clear to allow grease to escape and prevent damage to seals
- Reference blower manual for recommended greasing intervals based on your blower's operating hours
- If you are switching from another type of grease, make sure to fully purge the old grease as the two greases may separate if mixed
